ABRIDGED PROSPECTUS. 1HE object of the Company are to acquire the property and take over the business of the East Borneo Planting Company, Limited as a going concern and to plant and grow tobacco, pepper, &c., on their Estate (called the Melapi Estate) consisting of 10,000 selected acres of land on the now well known Kimbatangan River,

British North Borneo. The East Borne Planting Company, Limited commenced clearing in the Aulumn of 1888, and have been working their Estate to the present time. The result of the working for the year 1889 has been a crop of tobacco of the required quality as regards both size and texture of leaf, and simples have been valual by experts in London at 2/4 to 3/- per ib, and reported on in Amsterdam as of excellent quality, but the Capital of the Company has been found insufficient for the requirements of the enterprise. It has therefore been determined that the East B rnco Planting Company, Limited, shall be reconstituted

and the present Company has been formed for the purpose The Capital of the East Borneo Planting Company, Limited is \$200,000 divided into 4,000 shares of \$50 each fully paid up, and he consideration to be paid to the Shareholders in that Company is the same amount in 20,00) fully paid up shares in the present Company. The remaining 20,000, shares to be offered for sul scription in terms of this prospectors and

to be available for the further development of the Estate. The work-which has been done on the Estate is as follows : A Manager's house and Assistants house have been built, also coolie sheds and drying and fermenting sliede. Roads have been cut, drains made and jungle for planting 150 fields for 1890. There is also a Pepper Plantation on which letween \$4,000 @ \$5,000 has been expended and the prospects of which are good

The whole is in full working order, there is an ample supply of Chinese labour. The cash balance of the old Company and the proceeds of the Sale of the 1880 crop, which goes to Europe about May next being taken over as part of the assets the Directors have good reason to believe that I there will be mearly sufficient funds to work the crop of 1890 and that in any event it will not cost the present Company more than \$30,000. This crop, with the present organised labour force, may reasonably be expected to yield from 6 to 8 piculs a field, an estimated value of \$100,000 to \$13,000. In good years the average yield per field may be considerably higher The Ranow Estate British North Borneo has produced

104 piculs a field. The results to be obtained from the first year's working of this Company with 18 months labour already done on the Estate may be reasonably expected to be as fol-OWB :---150 fields @ say 7 picula a field = 1,050 picula or 140 000 fts, @ 2/6 per 10 = £17,500 or @ 3/1 ==

Deduct for charges, shipping drc., (liberal estimate) \$10 000 Deduct for working s/c. 80,000

\$73,519.58 Showing on first year's working of this Company a profit of over \$70,000. Forms of application to be obtained from the Hongkong & Shanghai Banking Corporation. The subscription list will close 80 on the Oth April, 1800.

THE river, says the Chinese Times, threatens

to be as troublesome this year as last, pronavigation are not only more marked but are at least three months in advance of last season. The South R ach is the first serions obstacle, but the worst obstruction is in the Tientain Reach. The water in this reach is getting shallower every day, and if no scour takes place sleamers will be excluded in a few weeks from reaching the Bund. Competent authorities venture the speculation that the periodical silting up of the Peiho is due principally to the numerous crecks that of late years have been cut, which drain the river of a comiderable amount of its water, reduce the force of the current, and thus allow the soil in suspension to settle in the Bed of the river instead of being carried out to sca. There may be some measure of probability in this, as during the past two years the creeks have been repaired and many new ones made, and since the port has been open to fereign trade the river has never behaved so badly as during the past your. The trade of the port is undoubtedly affected by the delay and additional charges imposed upon both imports and exports. It is an ill wind that blows no one good, and the Taku Tug and Lighter Company will not by any means be lesers should the port again become insccussible to steamer WE hear with a great deal of extistaction

This is by no means an ordinary course to be adopted by such a high official as the Viceroy, but is distinctly a new departure, and it is another indication, we may hope, that the non-obligatory relations, if we may so call? theur between Chineso and foreigness are becoming more friendly. Now that one of the leading Viceroys has thus shown his appreciation of the Duke of Connaught's visit, it is a pity that our visitors have to leave to suon, and that they could not see a little more of the country : it is at any rate fortunate that so genial and well-disposed a person as ILF. Ar the instance of some of the literati and gentry of the province, the Governor of Chekiang applies for honorary distinctions to a number of women remarkable for their virtue and devotion, the particulars of whose cases have been brought to light during the compilation of the annals of the Hangohov district. These, after an interruption of over 70 years, during which the province repeatedly suffered all the borrors of warfare, were resumed in 1880, and have now been brought up to date. In the year 1884 the then Governor Liu Pin-chang submitted to the Throne the cases of a number of virtuous women which had similarly been brought to his notice, and applied that honorific distinctions might be accorded to thom. To this request His Majesty was graciously pleased to assent. and their names were accordingly duly enrolled in the district annals up to the end of 1888. Since then further instances of female virtue linve been brought to light to the number of 2.016, in which the facts have never been reported, either owing to the woman having left no children or to her having lived in some out of the way village, so that the only record of her good deeds was to be found in the annals of her own family. The law it appears provides that in the case of women distinguished for virtuous conduct which lapse of yours has brought into oblivion, should there be any facts recorded in the local annals in support of their claims, application may be subsequently made on their behalf for some mark of honorary distinction. The present cases being of this description, and also in every report similar to those which in 1.84 obtain d His Majesty's permission to be honourably recorded, memorialist thinks that it would not be right to suffer them to sink into oblivion. To this end therefore, as well as in the interests of virtue and morality, memoralist begs that His Majesty will be pleased to sanction the honorary distinctions now applied for. Granted by Rescript.

AN INCIDENT OF THE ROYAL

Besunt Singh, a gun lascar, was brought before Mr Robinson in the Police Court to-day charged with disorderly conduct and assaulting police constables in the execution of their duty. The charge was denied.

In Ayun, police constable, said—On the 2nd instant about 10.30 p.m. there was a Chinese puppet show on Queen's Road, near the Contral Market. There was a large crowd of Chinese looking on. The defendant was there and several other Indians. There were also some Europeans I saw the defendant bit a Chinaman on the head with a stick, and the Chinamin fell. I tried to help him up, but he would not get up. I then went tourrest the defendant, but he rangway. The Chinese were hooting before the defendant dealt the blow. I don't know why they were hooling. Perhaps they were houting the actors as there was a false move in the play. When I went to get hold of the defendant he beat me, hitting me a blow on the head which caused it to bleed. Two other Chinese constables came to help mc. Sever I other lukong, new men, got hold of defendant and pushed him into a shop.

Alfred Skelton, clerk with Mesars Lane, Crawford and Co., said that on the occasion in question he, along with some friends, was standing at the foot of Cockrane Street. There was very little room to pass along Q een's Road, and he saw the Chinese interfere with several people who tried to pass. There was a kind of a rush whenever this happened, one of these movements carried witness and his friends into the crowd. A gun lascar shouted to the Chinese in Hindustani to get back. After this there was another rush and a Chinaman was either knocked or pushed down; witness did not see by whom. Then several bricks were thrown indiscriminately and one of them struck the defendant on the back of the head. Then there was a great rush of the whole crowd, headed by two or thee luthe Victoria Hotel, when several Europeans, witness among them, protected the Indian from the Chinese and pushed him

After hearing further evidence his Worship dismissed the defendant with a caution. He remarked that the defendant ought to have placed himself under the protection of the police, instead of resisting, but he had evidently acted in fear of the mob.

OHINA'S TRADE LAST YEAR. The report by the Imperial Maritim Customs on the trade of China during 1889 has been published in Shanghai. We have not yet received a copy, but the following article, reviewing the report, in the N. C. Daily News, gives a pretty good idea of its

The true statement of Gaures, to get at the real balance of trade, requires that the system on which the valuation is made should be understood. The figures as above are misleading because, to put it roughly, the impode are gross values and the exports are not values. Mr. McKean in his report makes the necessary corrections; which we need not reproduce in detail, and the following table is the result :--

Thus in 1888 the imports exceeded the exports by nearly two million tasks and the not movements of gold and silver were an export of Thill 1,700,000 of gold and Tls. 1,900,000 of silver (though it must be remembered that there is always a considerable import of the precious metals of which the foreign customs cannot take cognisance). But 1888 was an abnormal year: the imports of cattons, woollens and metals into Shanghai so outran the demand that the stack of these goods here on the 31st December was larger by Tis. 2,600;000 than the stock on the lat Janunry, 1888; and owing to the floods in the forence has appointed committees to dissouth of China, there was an importinto cuss questions of work in mines, Sunday 26 - 89 the Canton province alone of rice and labour, and women and children's labour. 26 - 86 | paddy to the value of nine mi lion tae's.
